Safe in the laboratory

Personal protective equipment

Safety goggles
protect the eyes from splashes

Lab coat
keeps chemicals off skin and clothes

Gloves
for corrosive or dangerous products

Tongs
hold hot objects safely

Fume hood
extracts toxic gases

Golden rules

Always protected
goggles, coat, hair tied back

Read the label
and its pictograms first

Know where
the eyewash, shower and extinguisher are

Wash your hands
at the end of the class

Never eat or drink
in the laboratory

Never taste or smell
a product directly

Never pour waste
down the sink

Never work alone
always with a teacher
