What is matter? Two questions to find out

① Does it have mass?

We can put it on a scale and it **weighs** something.

+

② Does it occupy space?

It has a **volume**: where it is, nothing else can be.

✓ YES to both → it is MATTER

rock

water

air in a balloon

you!

✗ NO → it is NOT matter

light

sound

heat

ideas

Matter must pass **both** tests: it has **mass** and it occupies **space**.
