Two objects on the same graph: where do they meet?

🔵 **Object A: starts at x = 0**
moves away at 2 m/s

🔴 **Object B: starts at x = 20 m**
comes back at 1.5 m/s

⭐ **The lines CROSS:**
both objects are at the same place at the same time.

They meet at t ≈ 5.7 s,
at x ≈ 11.4 m
