Saving energy every day

- Use **LED** bulbs: they use about 85 % less energy.
- Switch off devices: **standby** also consumes energy.
- Heating at **19–21 °C** in winter; close windows when it is on.
- Take **short showers** instead of baths.
- Walk, cycle or use **public transport**.
- Good **insulation** keeps the heat in.
- Recycle and buy **local** products.
- Use the washing machine **full** and at low temperature.
