Ácidos carboxílicos: grupo carboxilo –COOH

El grupo de mayor jerarquía. Su C es el carbono 1 de la cadena

GRUPO

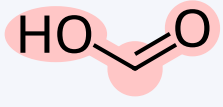

R–COOH

R–C(=O)–OH

ácido ...-oico, **ácido ...-dioico**; **ácido ...-carboxílico** si cuelga de un anillo

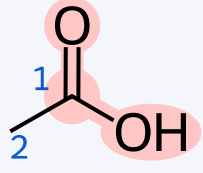

Prefijo: **carboxi-**

Admitidos: ácido fórmico, acético, benzoico, oxálico...

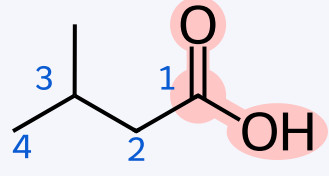

ácido metanoico

ácido fórmico

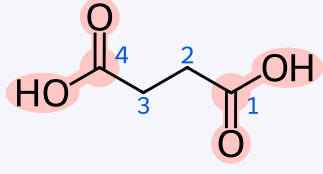

ácido etanoico

ácido acético

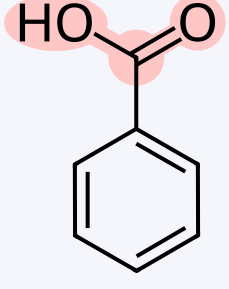

ácido 3-metilbutanoico

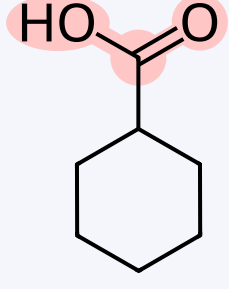

ácido butanodioico

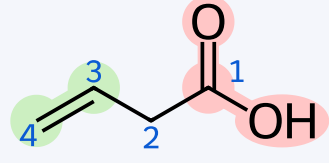

ácido succínico

ácido benzoico

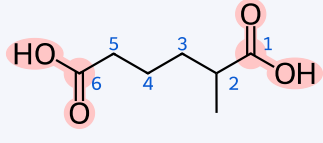

ácido ciclohexanocarboxílico

ácido but-3-enoico

-ano → -eno: but**en**oico

ácido 2-metilhexanodioico
